BGH children and foster families receive ongoing support to ensure the most successful placement and to avoid any potential for disruption. The TFC staff provide 24 hour crisis intervention to the children and foster families. All children receive individual therapy and therapeutic intervention specific to their assessed needs. Family therapy is provided when identified as appropriate. Our case managers ensure they are having in and out of home contact with the children on a monthly basis.

Well Being

Does this program have a PCC Foster to Adopt Agreement?:	No	Educational Disruptions in the Past Year:	1
Adoptions by the Program's Foster Homes in the Past Year:	0	School Changes in the Past Year:	0

Describe How the Program Supports Family Connections

Whenever a youth has a family members identified as part of their reunification BGH will engage family members in the treatment planning process. This includes regular family therapy, phone calls and visitation while a youth is participating in our program. The BGH clinical team will work with the families and Department of Community Based State social workers to assist families in overcoming any issues that may be identified as barriers that may interfere with treatment progress. BGH also works with family members by providing transportation to the home when the youth has an approved pass to leave facility. Clinical staff utilize home contact opportunities as a way to identify what is working in the therapeutic process. Clinical staff members work with families to develop aftercare plans and to secure community resources prior to reunification. BGH recognizes the importance of supporting a youth and family during a transition.

Special Interventions Available Internally

Boys and Girls Haven therapist are trained in a variety of evidenced based modalities and utilizes a trauma informed approach to provide individualized therapeutic interventions to meet the needs of our youth. Some of these interventions include Seven Challenges substance abuse services, expressive therapies, and JSO counseling. BGH also has an Independence Readiness Specialist that offers services for youth to develop life skills and prepare them for a career. When appropriate youth can receive specialized case management while gaining work experience.
