## Describe How the Program Supports Family Connections

Holly Hill supports family connections through involving family in all aspects of treatment. This begins by inviting the family to participate during intake and admission as well as attending treatment meetings and other professional meetings for their child. They are also encouraged to participate in family counseling services conducted by Holly Hill therapists. The therapists will conduct treatment meetings as well as family counseling sessions via telehealth if a barrier to treatment is transportation or distance to our residential campus. The family is also encouraged to maintain phone contact with their child as well as with the therapist. Families are kept informed of their child's progress in treatment and notified of any significant incidents that occur. Visitation for families and clients can be arranged on or off campus with Holly Hill assisting with transportation to support achieving permanency goals.

## Special Interventions Available Internally

Holly Hill focuses on a trauma informed approach in all aspects of treatment and cottage life. A focus on preparing each youth for a successful transition back to the community begins at admission. Our clinical team provides 24 hour crisis support to residential staff for assessment of clients including psychiatric hospitalization and any other specialized needs of clients.
