Well Being

Describe How the Program Supports Family Connections

Independent living is an extension of services along a continuum of care offered to older youth / adolescents who are nearing the age of majority and the end of their placement status. For these youth a positive start to life on their own is absolutely ESSENTIAL to a positive life outcome. In most cases these youth have no viable biological home or family supports to fall back on when times get tough. Necco's independent living program meets young people where they are in life and focuses on skills that promote self-reliance, good citizenship, responsibility, and self-esteem.

Special Interventions Available Internally

Necco provides 24-hour crisis support to independent living participants, ensuring that they always have someone to call. In addition we provide a wide range of specialized therapy interventions. Our highly trained counselors, clinicians and therapists provide quality services that include goal-directed, psychosocial treatment and support to youth and their families.
