Necco is a family company that serves at-risk youth through therapeutic foster care, independent living, in-home, mental health and more. We believe in harnessing the power of a strong family, experienced staff, and a robust community to make a positive and lasting difference in a child's life. Working with foster parents, state workers, service providers, and community resources we provide a holistic approach to children's services that stands to benefit not only the child, but the community as a whole. Our therapeutic foster care program currently provides treatment foster care placements for youth ages birth to 21 years and includes: intensive in-home case management, comprehensive treatment planning, 24-hour emergency assistance and ongoing support, mental health evaluations, individual and group therapy, outings for foster families, and experienced, helpful, and friendly staff. We serve a wide range of youth populations, including the most difficult children and those with a history of severe mental illness and/or criminally delinquent behaviors. We strive for a 24 hour response on all referrals and are always willing to assist on emergency referrals.

**Psychiatric Services**

Necco staff coordinates with local physicians and contracted psychiatrists to provide medication management services for the youth we serve. Youth are typically seen for medication management services within the first thirty days and/or when their current prescription requires an appointment for medication monitoring or assessing. Foster parents are trained in Necco's internal medication management curriculum. Necco staff monitor and support the youth and foster parent to ensure that medication management and documentation is consistent.

## Describe How the Program Supports Family Connections

At Necco . . . We Build Families! We know the Power of Family and we work with each youth to strengthen family bonds and connections. Each youth has a permanency goal as part of their individualized treatment plan. Not all youth are able to return to their bio parents or even a bio family member home, but we seek to strengthen family bonds (parents, grandparents, siblings, aunts and uncles, cousins, etc.) whenever possible. We work with the youth's state worker, foster parents and family to provide face-to-face visits (supervised and unsupervised as ordered), telephone contact and home visits (as allowed). The youth's treatment plan includes (as individualized to need and circumstances) goals and objectives related to strengthening bonds with family and other pro-social adults. Family counseling is provided as indicated by each youth's treatment plan.
