### Well Being

Adoptions by the Program's Foster Homes in the Past Year: 0 School Changes in the Past Year: 0	Does this program have a PCC Foster to Adopt Agreement?.	Yes	Educational Disruptions in the Past Year:	0
	Adoptions by the Program's Foster Homes in the Past Year:	0	School Changes in the Past Year:	0

Describe How the Program Supports Family Connections

Our program therapist actively work with biological families in family therapy, when directed to do so by DCBS and the permanency goal is return to parent. It is our goal to support the family's success and healing once a child returns home. The support of a Family Connection is something we strive for in every client's life and permanency, and is addressed from the minute a client is referred and admitted to our program. The biological family's input is vital to what we do in treatment. When families need our assistance, we work with them through flexible scheduling, counseling, supervised visitation, transportation, and other creative means of support. It is a privilege to be a guest in a family's life, and our staff expectation is to honor that privilege through respect of the family.

#### Special Interventions Available Internally

Our team works together with private therapy programs we contract. Our team also partners with The private psychiatric services in the community for medication management
