Kulima Care is passionate about serving families, whether foster, adoptive, or biological. We believe the foundation of our work with children and youth begins in the home, therefore it is a priority to provide ample support to the caregivers who are on the frontline parenting our clients. We seek to provide stable placements by recruiting and training qualified foster and adoptive parents. Our staff provides case management, mental health assessments and clinical support, parent training, and 24-hour crisis support. We also funnel resources and training to biological families when reunification is the goal.

Included/Excluded Populations**Gender Accepted:** Both **Age Range Accepted:** 0 to 21 **LOC Range Accepted:** 1 to 5 **Mininum IQ Accepted:** 70**Client History at Admission**

Psychiatric Services

Each child admitted to Kulima Care will receive a psychiatric evaluation within the first 30 days of admission to our agency. We have established strong partnerships with psychiatrists throughout the state to ensure those needing psychiatric services are seen promptly. Kulima Care also makes it a priority to communicate with previous psychiatric providers so that new transitions are smooth. All of our foster parents are trained in medication management, and the proper way to document the administration of all medication, under the supervision and support of our staff.

SERVICES AND OUTCOMESSafety

Well Being

Does this program have a PCC Foster to Adopt Agreement?:	Yes	Educational Disruptions in the Past Year:	3
Adoptions by the Program's Foster Homes in the Past Year:	1	School Changes in the Past Year:	0

Describe How the Program Supports Family Connections

Our agency believes that it is important to include a child's biological family in their treatment. Kulima Care provides an orientation to the child's biological family based upon what is specified in the court order and the child's plan of service. The orientation consists of a discussion about foster care, the biological families continuing involvement with the child, agency services, and a discussion of their rights and responsibilities while the child is in foster care. Our agency also meets face-to-face with the child's biological family within the first month of placement when this is indicated by the child's service plan. The agency will continue to meet with the biological parents to help the family reach goals in order to increase preparedness for reunification.

Special Interventions Available Internally

In addition to our 24 Hour Crisis support to foster parents, our agency has trained foster parents who are prepared to receive children in their home, 24/7, in an effort to de-escalate negative emotions and prevent future disruptions.
