Either Sex Operational Bed Capacity: 54

Foster Homes:

Supplemental Information

Sunrise Northern Region Foster Care has been licensed since 2005 and is just one part of a comprehensive continuum of care that is focused on our clients and their families. Our program is licensed to serve the populations of foster care, therapeutic foster care, medically fragile, and foster to adopt and have specialized homes for parenting teens, large sibling groups, clients over the age of 18 and lower functioning children while expanding services every day to better meet client needs. Our program uses a Positive Discipline evidence based practice model and specializes in the individualized treatment approach that every client deserves. Our teams are trained to complete drug testing when necessary. Our success is seen in the credentials and experience of our staff, the longevity of our foster parents, and the number of clients who have found forever homes (over 225 clients have been adopted in the last three years) through our foster-to-adopt emphasis across the Commonwealth.

Psychiatric Services

Our in-house therapist has an LCSW. The children seen in-house benefit from individualized therapy sessions that consist of play therapy, juvenile sexual offender treatment, attachment, abuse/neglect, and substance abuse, based on the needs of the child. The treatment team members working with the youth and the families have backgrounds in residential settings, therapeutic foster care, state social work, and investigations. Each member of the team is extremely involved with the children, as well as the biological and foster families and state workers assigned to the cases. Northern Region Foster Care has the ability to reach out to other therapeutic foster care and residential staff within the agency, allowing us access to specialized therapists across the Commonwealth. Our team has partnerships with area psychiatrists and pediatricians/ARNPs to focus on optimum care for our clients.

SERVICES AND OUTCOMESSafety

Number of Substantiated Abuse Allegations in the Past Year: 0			
Total # of Bedrooms: 21	Percentage of Direct Care Staff Trained in Physical Management	N/A

Well Being

Does this program have a PCC Foster to Adopt Agreement?: Yes	Educational Disruptions in the Past Year: 0
Adoptions by the Program's Foster Homes in the Past Year: 4	School Changes in the Past Year: 7

Describe How the Program Supports Family Connections

The support of a Family Connection is something we strive for in every client's life and permanency is addressed from the minute a client is referred and admitted to our program. Our team works directly with the biological family whenever possible to include them in the progress/treatment of the child. We work with families through flexible scheduling, internet facilitated meetings/visits, family therapy, phone card assistance, supervised visitation, transportation, and other creative means of support. It is our goal to build upon the strengths of the family unit while working to provide structured supervised visitation in a "real life setting" to better prepare families for the transition of children back into their homes and lives.

Special Interventions Available Internally

Foster Care Specialists and Therapists provide home and community visits, a minimum of weekly contacts, transportation for clients, respite opportunities for families, assistance with school registration, coordinate with school personnel with on going care and any behavioral or academic problems with the client, on call and emergency services, individual and group training, and supervisory visits to ensure proper assistance to families.
